

Fictional Symbols That '70s Show

Linda Rueda Ramirez

Fictional Symbols

Project Overview

Choose a set of at least 5–10 fictional characters from literature, film, or television. Animation and video game characters are not allowed. You will design a set of symbols that best represent each character.

Research

Summarize each character then create a list of descriptors. Define 5 physical and 5 personality traits for each. Make sure that each word is distinct and is not similar to others. Choose descriptors that define only your character.

Once you have your list of ten, collect at least 5 existing symbols/icons for each. Create a mind map for each word if you have trouble finding symbols.

Synthesis

Once you have a collection of symbols, pair them up. Look for unexpected combinations in your pairs. Design begins once you have defined each character. You will have at least 2–3 symbols to combine or redefine.

Leo Chingwake

He's a elder man who's the manager of the Video/photo shop. He hired Steven Hyde because both have the same vibe and trust him to watch the store. Beside being manger of Steven, he's a father figure/mentor for Steven whenever he asked for question/advice.
